

Upgrading older generation software **TO** mySewnet Subscriptions

There are no upgrade paths available for older generation of software to mySewnet subscriptions. You can subscribe to mySewnet Subscriptions but there isn't a connection between your older software and the new subscription software. I.e. there is not a discounted price for an owner of an older software if they sign up for a subscription

Upgrading older generation software **TO** mySewnet perpetual license (one-time purchase)
