

mySewnet Embroidery Software Level: Gold/Platinum

Appliqué

Create beautiful appliqués patterns from your embroideries.

- Insert appliqué fabric outlines into an existing design with appliqué areas
- Preview your appliqués on screen using different fabrics
- Export the appliqué pieces to your cutting machine

Open a blank canvas and choose the 120x120mm Hoop, Orientation Natural.	Hoop Selection Hoop Type Hoop Group: Husqvarna Viking Designer Epic 2 Hoop Size: 120mm x 120mm - Designer Splendid Square Hoop Included in My Hoops Orientation Orientation Natural Rotated Enter Size Enter Size Enter Hoop Size Width: 120 mm Height: 120 mm OK Cancel Help
Go to the SuperDesign tab and find Shapes 1, Applique	Encore Letter SuperDesign Frame Appliqué Embellish Modify View Image: Shapes 1 (Applique) Image:

Choose the cross design and set the size to 80mm. Click Apply	
Right click to Fix the SuperDesign as stitches. This is an important step before adding appliqué lines otherwise the design can not be recognized.	Eix as Stitches Properties
Go to the Appliqué Tab. The Appliqué feature will only add the visual of the appliqué, not add any appliqué steps or stitches.	File Home Create Encore Letter SuperDesign Frame Appliqué Appliqué Appliqué
Here you have different options. You can create your own Applique outline with either Freehand Line or Point Line. Or choose Express Appliqué.	
Click Express Appliqué. The Applique areas are automatically selected.	mySewnet [™] Embroidery × Found and added 2 potential appliqué piece(s). Review and remove any unwanted pieces.
A pop-up will open and show different Applique Selections.
