## **Quilt Block Wizard**

Create a filled or outline quilt block automatically with this wizard.

- Build a block filled with quilting stitches
- Pick a block shape, set the size and add an embroidery design
- Choose a fill style such as Stipple, Crosshatch or Echo to fill the area around the design with quilting

1.	Open mySewnet Embroidery. Choose Blank Canvas. In the Hoop Selection pop-up choose 240mm x 150mm Hoop. Orientation Natural. Click OK	Hoop Selection Hoop Type Hoop Group: Hoop Size: Orientation	Pfaff creative Icon 240mm x 150mm - creative Mi 1ncluded in My Hoops	aster Hoop v

2.	Go to Create, Click on Quilt Block When you open the wizard there are several choices. If you click on them there will be an image	Quilt Block		
3.	In the dialog box, choose Filled Quilt Block; Outline Inner Shape. This means we will create a quilt block with an empty shape in the center Click Next	<ul> <li>Filled Quilt Bit</li> <li>Outline Quilt Bit</li> <li>Filled Quilt Bit</li> <li>Filled Quilt Bit</li> <li>Outline Quilt Bit</li> </ul>	ock; Inner Embroidery Block; Filled Inner Shape ock; Outline Inner Shape Ock; No Inner Shape Block; No Inner Shape	

4.	In the Select Size dialog box, Set the Shape to 2, rectangle. Enter Size alternative set A to 110mm and B to 190mm Uncheck the Cut Line box, Click Next	Item tem tem tem tem tem tem tem tem tem
5.	In the Select Shape dialog box there are a lot of shapes to choose from, but this time choose number 3, the square In the Shape Size box, set the Width and Height to 44mm. If Proportional is selected you only have to fill in one of the measurements, the height and width will be exactly the same Move the square to the upper part of the area, leaving approximately the same area around the top and the sides. Click Next	Quit Block Ward - Select Shape         shape
6.	In the Select Fill Pattern dialog box you can choose from a variety of fill patterns. When you get into the dialog box the stipple pattern will appear. In this case we will click on echo. The pattern changes immediately. If you are not pleased with the outcome, click on Back and move the inner square. Then click on Options

18.	On the Export pop-up you also get additional choices under Optimize for Sewing. These are settings you can change in Configure.	Optimize for Sewing         Combine         Remove Overlap         ColorSort         Ø Optimize Stitch Length:
19.	If you open Configure under the File menu and the Export Tab you can select your options. Removing the checkmarks for Combine and Color Sort helps if you want to decide when to do that manually before Export. This is very useful when working with Appliqué designs where you want to keep the number of color blocks for the technique steps. When you have made the changes click Apply and OK.
